

THANK YOU OLL!!!

Founded in 2010, the mission of *Northern Without Borders* is to plan, develop, and implement student-led service work in underserved areas around the globe. Now, thanks to *Northern Without Borders*, ONU students brought about change for others as well as for themselves. This year, nearly 100 students, faculty, staff, and alumni from various disciplines completed a total of 36 clinics in the Dominican Republic over the course of three weeks.

Over the three weeks, *Northern Without Borders* provided medical attention to thousands of Dominicans and provided Bible schools, sports camps, and crafts to hundreds of children. Every village we visited was more inviting than the next. While patients received medical and dental care, children were read Bible stories and received simple pleasures such as stickers that made them ecstatic.

Thanks to Our Lady of Lourdes, *Northern Without Borders* was able to purchase much needed medications for our clinics. Many of the Dominicans are malnourished and suffer from easily treated ailments in the states such as high blood pressure or parasites. With Our Lady of Lourdes's donations, *Northern Without Borders* purchased thousands of vitamins, medicated creams and ointments, blood pressure, heartburn, and anti-parasitic medications. These purchases proved to be a staple in the clinics. By providing these medications, we were able to improve the Dominican's quality of life and overall health.

Northern Without Borders would like to extend a heartfelt thank you to Our Lady of Lourdes. Thanks to your generous support, *Northern Without Borders* was able to make a difference in the health of thousands of Dominicans. We truly appreciate your unwavering support over the past two years as our organization continues to grow!
